

Surviving First Amendment Audits and Citizen Journalist Encounters is designed to provide public servants, both sworn and civilian, with the information, strategies, and attitudes necessary to prevail when confronted by this new breed of social media “watchdogs.”

HOW

The seminar consists of a **4-hour, in-person, instructor-led presentation** that is organized around the same research based presentation principles employed by **TED Talks**. The multimedia presentation incorporates both video clips of actual audits and enhanced student engagement activities. “Death by PowerPoint” will NOT be tolerated.

At the conclusion of the training series, we will provide the client agency a PDF copy of the full **CJSTC compliant lesson plan** documenting the material covered.

We will also provide a PDF copy of our **End of Course Handout**, summarizing the key points of the course, that the client may print for each attendee, and a **Certificate of Completion** for each attendee.

In addition to the course material that my legal counsel and I have prepared, we can set aside a portion of the course to cover any of **your agency’s policies or bulletins** that pertain directly to members’ response to auditor activities (ex., Trespassing Persons from Public Property, Interacting with the Media, Accessing your Legal Advisor, etc.)

COST

Prokopton Training and Development, LLC charges a flat rate of **\$3,750.00** per Training Day (Training Day = Calendar Day). We are happy to present **two 4-hour sessions per Training Day**, and there is **no limit to the number of attendees** you can schedule per session. The larger the class size, the greater value for the client. Yes, you may schedule TWO sessions with as many students as you can, for the one-day fee. When an odd number of 4-hour sessions are needed, sessions may be billed individually at **\$1,875.00** each. We have carefully considered our fees, relative to comparable training offerings currently available, and we are confident you will find our rates to be within the mean. There are no other fees or charges.

WHERE

We come to you. All we need is a standard classroom with a multimedia system for PowerPoint and videos. We recommend using the largest room you have available, so you can fill each session with as many personnel as possible. The greater the number in attendance = the lower the cost.

WHEN

We are also willing to present the seminar outside of “normal” business hours, to accommodate the **night shift** folks. You could schedule a 0800-1200 and 1300-1700 session, or a 1300-1700 and a 1800-2200 session.

As former first responders, we're well acquainted with the difficulties involved in scheduling training for personnel across 24-hour shifts. We are committed to offering clients the greatest flexibility possible in scheduling.

We look forward to serving your agency.
